Introduction

In presenting this, my first catalogue of Orchids, I wish to thank my many customers for their liberal patronage, and trust to have continuance of same, assuring them of utmost satisfaction.

Making a specialty of Orchids, of which I made a special study in all its branches in the last twenty years, I am now in a better position to supply my customers with anything in the Orchid line.

Amateurs intending starting to grow Orchids should write me for special list of such varieties that are best suitable for beginners.

The prices given in this catalogue are for good strong flowering plants. Prices and description of large and specimen sized plants cheerfully given on request.

I always have on my register a number of competent men who are well versed in Orchid growing whom I would be glad to recommend to any lady or gentleman requiring their services.

I shall be pleased to furnish advice on any subject pertaining to Orchids.

I make no charge for packing, and will guarantee the safe arrival of all plants if sent by express.

Visitors are always welcome.

Give me a trial order.

Respectfully yours,

JOSEPH A. MANDA.

MEMORANDUM.

Orchids arrived in good condition, and prove satisfactory.

A. WEISSENBERGER.
